| Collaboration Standards |
| --- |
| Never edit master branch directly |
| Edit dev and create pull request |
| Discussion is held before merging into master |
| Merge conflicts occur if afore mentioned standards are violated |

| Coding Standards |
| --- |
| CamelCase : Class Names |
| Each word should have only the first character capital |
| Ex: class MakeWorld |
| pascalCase : methods and variables |
| First word should be in lower case and rest should have first character capital |
| Ex: getFighterDetails |
| Use #region <regionname> and #endregion to segregate the class code |

| World |
| --- |
| Fighter    uses    Constants    to  get respective stats from _wid |
